On October 9, the streets of Downey will be imprinted with reenergized people with disabilities and allies taking pride and marching in solidarity! Today marks the beginning of our efforts to develop a whole community of people with disabilities and allies who are proud to be who we are, who do not see ourselves as victims, who expect more from ourselves and those within our community, and who are committed to building an inclusive community that recognizes the dignity, humanity, and worth of all people. We must put our efforts into transforming the hearts, minds, and souls of our people; for that is where our true power lies.
